

RACE

BACKGROUND

VALKYRIES are the chosen handmaidens of Odin who lead the righteous and valorous warriors to Valhalla. Trained to meter out Odin's judgment on the battlefield, their presence to the great Norse warriors was ever a blessing, though they knew a VALKYRIE'S presence may reflect their impending death. Known also are the rarer moments where these merciless angels tipped the scales of warmaking to suit Odin's designs, and smite down to the underworld those unchosen souls verboten and accursed in the halls of Valhalla. VALKYRIES are rarely alone, and their sisterhood is only overshadowed by their unbending duty to Odin's will. They usually ride the progeny of Sleipner, fleet and giant steeds, favoring long arms from horesback, but equally able with sword on foot. There are tales of mortals who have slain a VALKYRIE, but none have lived long to boast of it in the wake of the unrelenting sisterhood and a wrathful father.
